

# 5500 Outswing Entry Door

The 5500 Series 6-Panel Outswing Entry Door, available with several different window configurations, gives your home a clean and classic look without compromising security and energy efficiency. With heavy-duty steel paneling and a galvanized steel frame, the 5500 Series door securely protects your entryway. The door's polystyrene foam core helps to insulate your home, acting as a thermal barrier against the outdoor elements. This functional entryway is a great addition to any home.
