CPS175PSU POWER INVERTER

Convert DC power to AC power for laptops, mobile devices, and electronics

The CyberPower CyberPower 175 Power Inverter (CPS175PSU) converts power from your vehicle's 12V DC power outlet to simultaneously power up to three devices (175-watt peak) with its two household AC outlets and one 2.4-Amp USB port. Use the AC outlets to power portable electronics while you're traveling. The 2.4-Amp USB port quickly charges a tablet, smartphone or any other USB-powered device. The slim design makes the CyberPower175 easy to carry, and it is a perfect power accessory for your next road trip.

Safety features such as a 15-Amp fuse, surge protection, and automatic shutdown protect your connected devices from power surges and your automotive battery from power drain. The CyberPower 175, which comes with a two-foot power cord and a DC power plug, is ideal for powering mobile devices and office electronics while you're traveling. For peace of mind, this product is backed by a two-year limited warranty.
