

14" Micro-scrubber with Lithium Battery

The Sentry 141M is the little floor scrubber that offers big benefits. Its deep scrubbing action and innovative parabolic squeegee make the Sentry 141M a highly maneuverable, powerful tool for your cleaning program. Replace traditional mops and bucket cleaning with a more effective machine that leaves floors clean and dry.

- Highly productive: Scrub up to 10,700 square feet per hour.
- Extreme maneuverability: The parabolic squeegee swivels around the scrub deck, allowing tight, 180-degree turns.
- Safer than mopping: Completely removes dirt from the area and leaves floors safe and dry, reducing slip and fall risk.
- Better ergonomics: Scrubbing requires less twisting and lifting than mopping, reducing employee fatigue and avoiding repetitive strain injuries.
- Easy to maintain: The recovery tank is easily removable for draining. Replace the squeegee blades without tools. Maintenance free Li-Ion Phosphate battery.
