CRC MATERIAL SAFETY DATA SHEET

Section 1: Product & Company Identification

Product Name: Screwloose® Industrial Penetrating Oil (aerosol)

Product Number (s): 03059, 03060

Product Use: General Purpose Penetrant

Manufacturer / Supplier Contact Information:

In United States: CRC Industries, Inc. 885 Louis Drive Warminster, PA 18974 <u>www.crcindustries.com</u> 1-215-674-4300 (General) (800) 521-3168 (Technical) (800) 272-4620 (Customer Service) In Canada: CRC Canada Co. 2-1246 Lorimar Drive Mississauga, Ontario L5S 1R2 <u>www.crc-canada.ca</u> 1-905-670-2291 In Mexico: CRC Industries Mexico Av. Benito Juárez 4055 G Colonia Orquídea San Luís Potosí, SLP CP 78394 www.crc-mexico.com 52-444-824-1666

24-Hr Emergency - CHEMTREC: (800) 424-9300 or (703) 527-3887

Section 2: Hazards Identification

Emergency Overview

DANGER: Flammable. Harmful or Fatal if Swallowed. Contents Under Pressure. Appearance & Odor: Light amber liquid, petroleum solvent odor

Potential Health Effects:

ACUTE EFFECTS:

- EYE: May cause mild eye irritation. Symptoms include stinging, tearing and redness.
- SKIN: Can cause skin irritation. Prolonged or repeated contact may dry the skin. Symptoms may include redness, burning, drying and cracking of the skin.
- INHALATION: Expected to have a low degree of toxicity by inhalation. Breathing concentrated vapors may be harmful. Symptoms of overexposure include irritation of the nose and throat, headache, dizziness, drowsiness, loss of coordination and other signs of central nervous system depression.
- INGESTION: Low degree of toxicity by ingestion. May cause irritation of digestive tract, nausea and vomiting. Main hazard is aspiration of material into lungs during swallowing or vomiting. This can lead to lung inflammation and damage.
- CHRONIC EFFECTS: Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

TARGET ORGANS: kidneys, central nervous system

Medical Conditions Aggravated by Exposure: skin disorders, respiratory disorders

See Section 11 for toxicology and carcinogenicity information on product ingredients.

Section 3: Composition/Information on Ingredients

COMPONENT	CAS NUMBER	% by Wt.
Mineral spirits	8052-41-3	45 - 55
Hydrotreated light distillates	64742-47-8	35 - 45
Solvent refined heavy paraffinic distillates	64741-88-4	5 - 10
Oleic acid	112-80-1	1 - 5
Carbon dioxide	124-38-9	1 - 5

Section 4: First Aid Measures

Eye Contact: Immediately flush with plenty of water for 15 minutes. Call a physician if irritation persists.

- Skin Contact: Remove contaminated clothing and wash affected area with soap and water. Call a physician if irritation persists. Wash contaminated clothing prior to re-use.
- Inhalation: Remove person to fresh air. Keep person calm. If not breathing, give artificial respiration. If breathing is difficult give oxygen. Call a physician.
- Ingestion: Do not induce vomiting. Contact a physician immediately. If victim is drowsy or unconscious, place individual on the left side with head down.
- *Note to Physicians:* This material is an aspiration hazard. Potential danger from aspiration must be weighed against possible oral toxicity when deciding whether to induce vomiting.

Section 5: Fire-Fighting Measures

 Flammable Properties:
 This product is flammable in accordance with aerosol flammability definitions. (See 16 CFR 1500.3(c)(6)).

 Flash Point:
 109°F / 42°C (TCC)
 Upper Explosive Limit:
 6.0 (estimate)

 Autoignition Temperature:
 ND
 Lower Explosive Limit:
 1.0 (estimate)

Fire and Explosion Data:

Suitable Extinguishing Media: Foam, carbon dioxide, dry chemical; Class B fire extinguishers

Products of Combustion: Oxides of carbon

Explosion Hazards: Aerosol containers, when exposed to heat from fire, may build pressure and explode. Vapors may accumulate in a confined space and create a flammable atmosphere.

Protection of Fire-Fighters: Firefighters should wear self-contained, NIOSH-approved breathing apparatus for protection against suffocation and possible toxic decomposition products. Proper eye and skin protection should be provided. Use water spray to keep fire-exposed containers cool and to knock down vapors which may result from product decomposition.

Section 6: Accidental Release Measures

Personal Precautions: Use personal protection recommended in Section 8.

Environmental Precautions: Take precautions to prevent contamination of ground and surface waters. Do not flush into

sewers or storm drains.

Methods for Containment & Clean-up: Dike area to contain spill. Ventilate the area with fresh air. If in confined space or limited air circulation area, clean-up workers should wear appropriate respiratory protection. Recover or absorb spilled material using an absorbent designed for chemical spills. Place used absorbents into proper waste containers.

Section 7: Handling and Storage

Handling Procedures:	Do not use near sources of ignition. Do not use on energized equipment. Use with proper ventilation. Wash hands after use and before handling food. Use caution around energized equipment. The metal container will conduct electricity if it contacts a live source. This may result in injury to the user from electrical shock and/or flash fire. For product use instructions, please see the product label.
Storage Procedures:	Store in a cool dry area out of direct sunlight. Aerosol cans must be maintained below 120°F / 49°C to prevent cans from rupturing.

Aerosol Storage Level: III

Section 8: Exposure Controls/Personal Protection

Exposure Guidelines:

	05	бНА	AC	GIH	O.	THER	
COMPONENT	TWA	STEL	TWA	STEL	TWA	SOURCE	UNIT
Mineral spirits	500	NE	100	NE	NE		ppm
Hydrotreated light distillates	NE	NE	NE	NE	NE		
Solvent refined heavy paraffinic distillates	NE	NE	NE	NE	NE		
Oleic acid	NE	NE	NE	NE	NE		
Carbon dioxide	5000	NE	5000	30000	NE		ppm
N.E. – Not Established (c) – ceiling (s) – skin (v) – vacated							

Controls and Protection:

Engineering Controls: Area should have ventilation to provide fresh air. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at the source, preventing dispersion into the general work area. Use mechanical means if necessary to maintain vapor levels below the exposure guidelines. If working in a confined space, follow applicable OSHA regulations.

Respiratory Protection: None required for normal work where adequate ventilation is provided. If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use a NIOSH-approved cartridge respirator with organic vapor cartridge. Air monitoring is needed to determine actual employee exposure levels. Use a self-contained breathing apparatus in confined spaces and for emergencies.

- Eye/face Protection: For normal conditions, wear safety glasses. Where there is reasonable probability of liquid contact, wear splash-proof goggles.
- Skin Protection: Use protective gloves such as nitrile or neoprene. Also, use full protective clothing if there is prolonged or repeated contact of liquid with skin.

Section 9: Physical and Chemical Properties

Physical State: lic	quid					
Color: light amb	er					
Odor: petroleur	m solvent					
Odor Threshold:	ND					
Specific Gravity:	0.790					
Initial Boiling Point:	300°F / 148°C	C				
Freezing Point:	ND					
Vapor Pressure:	ND					
Vapor Density:	> 4	(air = 1)				
Evaporation Rate:	slow					
Solubility: insolu	ible in water					
Coefficient of water/	oil distribution:	ND				
pH: NA						
Volatile Organic Cor	npounds: <u>w</u>	<u>wt %</u> : 48.4	<u>g/L</u> :	382.4	<u>lbs./gal:</u>	3.19

Section 10: Stability and Reactivity

Stability:StableConditions to Avoid:Sources of ignition; temperature extremesIncompatible Materials:Strong oxidizing agentsHazardous Decomposition Products:Oxides of carbonPossibility of Hazardous Reactions:No

Section 11: Toxicological Information

Long-term toxicological studies have not been conducted for this product. The following information is available for components of this product.

Acute Toxicity:

<u>Component</u>	Oral LD50 (rat)	Dermal LD50 (rabbit)	Inhalation LC50 (rat)
Mineral spirits	> 5 g/kg	> 3 g/kg	> 1300 ppm/4H
Hydrotreated light distillates	> 5 g/kg	> 2 g/kg	> 5 mg/L/4H
Solvent refined heavy paraffinic	> 2 g/kg	> 2 g/kg	No data
distillates			
Oleic acid	25,000 mg/kg	No data	No data
Carbon dioxide	No data	No data	470,000 ppm/30M

Chronic Toxicity:

Oleic acid	No	No	No	No	Unknown
Carbon dioxide	No	No	No	No	No

Reproductive Toxicity:	No information available
Teratogenicity:	No information available
Mutagenicity:	No information available
Synergistic Effects:	No information available

Section 12: Ecological Information

Ecological studies have not been conducted for this product. The following information is available for components of this product.

Ecotoxicity:No information availablePersistence / Degradability:No information availableBioaccumulation / Accumulation:No information availableMobility in Environment:No information available

Section 13: Disposal Considerations

<u>Waste Classification</u>: The dispensed liquid product is a RCRA hazardous waste for the characteristic of ignitability with a waste code of D001. (See 40 CFR Part 261.20 – 261.33). Aerosol containers should be fully emptied and depressurized before disposal. Empty aerosol containers may be recycled.

All disposal activities must comply with federal, state, provincial and local regulations. Local regulations may be more stringent than state, provincial or national requirements.

Section 14: Transport Information

US DOT (ground): UN1950, Aerosols, flammable, 2.1, Limited Quantity**

ICAO/IATA (air): UN1950, Aerosols, flammable, 2.1, Limited Quantity

IMO/IMDG (water): UN1950, Aerosols, 2.1, Limited Quantity

Special Provisions: **This product can be classified and labeled as 'Consumer Commodity, ORM-D' for domestic ground shipping until January 1, 2014. If shipping as limited quantity by ground, note that shipping papers are not required.

Section 15: Regulatory Information

U.S. Federal Regulations:

Toxic Substances Control Act (TSCA):

All ingredients are either listed on the TSCA inventory or are exempt.

<u>Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)</u>: Reportable Quantities (RQ's) exist for the following ingredients: None

Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center (800-424-8802) and to your Local Emergency Planning Committee.

Superfund Amendments Reauthorization Act (SARA) Title III: Section 302 Extremely Hazardous Substances (EHS): None
