

# HIT™ INFLATABLE WORK VEST (MD3157)

MUSTANG SURVIVAL WE SAVE LIVES FOR A LIVING

Available exclusively from Mustang Survival, the HIT™ Inflatable Work Vest is the only one of its kind. Designed and built for serious users, Mustang Survival pioneered the standards for inflatable work vests.

With a comfortable and low-profile fit, the MD3157 HIT™ Inflatable Work Vest offers enhanced mobility and reduced heat stress, allowing crews and professionals to work more efficiently throughout the day. Its 38 lb buoyancy rating also means they'll have the added safety of extra flotation and self-righting when they need it.

Made for the most severe marine environments, the HIT™ Inflatable Work Vest contains Hydrostatic Inflator Technology (HIT™) that offers reliable inflation in a low maintenance design that will automatically inflate when submerged in 4 or more inches of water, and not inadvertently due to rain, spray or humidity. This technology is exclusive to Mustang Survival in North America and maintenance-free for 5 years from date of manufacture or until inflated. Ideal for constant wear situations, hot, humid conditions and high-mobility requirements.

## FEATURES:

- Approval: TC Marine- CAN/CGSB 65.7-2007, Class 1 Category 2A
- Low maintenance Hydrostatic Inflator Technology only inflates when submerged in water, minimizing accidental inflation.
- Provides 38 lbs of buoyancy when inflated - twice the inflation of most foam PFD's
- Compatible with Re-arm Kit C (Model #MA7214)
- Manual inflation allows you to inflate the vest at any time
- Light weight and comfortable design
- Bright fluorescent yellow-green inflation cell for improved water visibility
- Secure zip™ closure
- Neoprene Comfort Collar™
