

The background of the entire image is a solid black. Overlaid on this are several dynamic, flowing shapes of a bright, metallic gold color. These shapes resemble liquid splashes or molten metal, with smooth, curved surfaces and sharp highlights that catch the light, giving them a three-dimensional appearance. One large splash starts from the bottom left and curves upwards towards the center. Another splash is positioned at the top, arching over the text. A third, smaller splash is on the right side, partially behind the text. The overall effect is one of elegance and high-end quality.

ENHANCE™

BY EMSER TILE®

ENHANCE™

BY EMSER TILE®

DESIGN BEYOND LIMITS

A curated collection offering enhanced looks and features that provides endless opportunities to design beyond limits.

Design is a work of passion. Creating spaces that are as beautiful as they are functional does not happen by accident. Careful thought and planning must take place to ensure the proper mix of form and functionality is achieved. Even then, the results may not always come out as expected.

Enhance™ by Emser Tile was inspired by this challenge. This collection offers a vast selection of colors and styles making every installation as unique as its owner. Plus, with special features such as R11 Anti-Slip and EmGuard™ Anti-Microbial finishes, this collection is a remarkable example of functionality fusing with design.

Take a look inside and become inspired by a small selection of the countless possibilities available. There are truly no limits to the level of design and personalization that can be achieved with Enhance™ by Emser Tile®.

MOQ and Lead Times apply. Please contact your local Emser Representative for full details.
