The image contains two technical drawings of a table assembly, labeled I and II.

View I (Perspective View): This view shows the table from a three-quarter perspective. It consists of a large, shallow, oval-shaped top (labeled (1)) and a pedestal base (labeled (2)). The base has a flared, bowl-like foot. A dashed vertical line indicates the center of the top. On the left side, three callouts (A), (B), and (C) point to the assembly points where the top is attached to the base. Callout (A) points to a small circular feature on the underside of the top. Callout (B) points to a small circular feature on the top surface of the base. Callout (C) points to a small rectangular feature on the top surface of the base.

View II (Side View): This view shows the table from a side profile. It shows the oval top (labeled (1)) and the pedestal base (labeled (2)) from a different angle, highlighting the curved profile of the base and the flared foot.
