- Use to cut exhaust pipes 3/4 in. to 3-3/4 in. diameter
- 15 hardened steel blades for quick, efficient cutting
- Works well in confined hard-to-reach places, needing only a quarter turn to work

- Cut tailpipe and exhausts on or off the vehicle cleanly, with minimal rough edges or burrs
- Lubricating cutting wheels before use provides smooth cutting and extends the life of the blades
- Cushion grip handles for comfort during one-handed rotation
