Studio Quality Lighting

NanLite Compac series studio LED panels create diffuse, color accurate, studio lighting with minimal set up and zero complications. Perfect for lighting interviews, headshots, still life photography, vlogging, and more.

Full Creative Control

Achieve studio-quality results without adding plastic filters or cloth diffusion. Control brightness from 0-100% and color temperature is set to 5600K for compatibility with other light sources and camera white balance presets.

The Light You Need in the Room You Have

Combining a space-saving design with impressive brightness; Compac series studio LEDs achieve lighting similar to large softboxes but at a fraction of the size and none of the set up time.

Consistent Results

An LCD panel shows you exactly what settings you're using, making it easy to fine tune and then recreate them in future so your results will always be easily repeatable.
