Desktop 802.11n Wireless Router

DA2154-V1

DESKTOP 802.11N WIRELESS ROUTER

The Desktop 802.11n Wireless Router's dual antennas provide broad, reliable Wi-Fi coverage throughout the home at speeds of up to 300 Mbps. It supports the latest encryption technologies to keep the network secure. The router also includes a four port Ethernet switch for hardwired connections. Installing and configuring the router is easy with a simple setup wizard.

Note: Power Supply Included

DA2155-V1

Desktop 802.11n Wireless Access Point

DA2155-V1

DESKTOP 802.11N WIRELESS ACCESS POINT

The Desktop 802.11n Wireless Access Point can create a new, or expand an existing Wi-Fi network. When switched into Range Extender mode, the wireless signal is boosted so it can reach areas that were previously unreachable by the existing wired or wireless network. It connects Wi-Fi networked devices at speeds of up to 150 Mbps. The built-in antenna optimization software creates the best network coverage. Supports the latest encryption technologies to keep the network secure. Compatible with other 802.11n/g/b products. Simple setup wizard enables easy installation and configuration onto the home network.

Note: Power Supply Included
