- Wear a smock or old clothes.

Similar to Painter's Tape, this low tack adhesive paper roll can be cut, mounted to walls, counter tops and other flat surfaces.

Seek adult permission and assistance before attaching to any surface.

To test the surface cut a small piece of mural and place it in an inconspicuous area. The paper should be easy to stick and remove.

Includes 6 bright neon markers.
Use the chisel tips to create thick or thin lines.

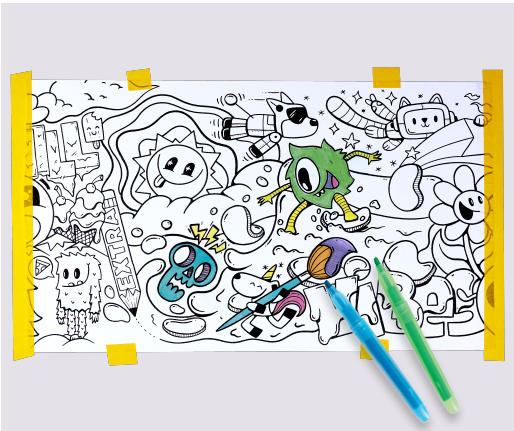

Low-tack adhesive is repositionable from most surfaces and leaves no glue residue behind.

For best results apply the mural to smooth, non-porous surfaces such as tables, floors, non-textured walls and counter tops. Humidity and temperature changes may impact adhesion.

Unroll the mural and use the included tape to secure the edges and sides as shown below.

When you're finished coloring, decorate with the fun foil stickers and wiggly eyes included.
