TRIDENT®

Better Built. Better Equipment.

Better Built. Better Equipment.

For medium and large-sized spaces, the Trident SW20 walk-behind sweeper is a perfect option. It combines maneuverability, productivity, and affordability, making it an excellent option for professional cleaners. Sweep up to 27,000 square feet per hour. Simple controls and an ergonomic handle make the SW20 easy to train and comfortable to use. The optional multi-stage HEPA air filtering system leaves the surrounding area clean and safe for the operator and the building occupants. Molded from high-density polyethylene, the SW20 is built to last, even in challenging environments. No tools are needed for routine maintenance tasks, like changing brushes and filters. Suitable for indoor and outdoor use, the SW20 walk-behind sweeper is recommended for parking lots, warehouses, light industrial environments, food service, and educational facilities.

MULTI-STAGE AIR FILTERING SYSTEM

HEPA filter
High filtering capacity with
the finest dust
(0.3 µm - 99.9% efficiency)

Polyester or paper
panel filter

NO TOOLS REQUIRED FOR ROUTINE MAINTENANCE

ORDER WITH FACTORY INSTALLED BATTERIES

TECHNICAL DATA		SW20	SW20T
Hillyard Item Number		HIL56042SLA	HIL56037SLA
Central Brush Width	in	19.6	
Cleaning Path with Side Brush	in	25.6	
Side Brush Quantity		1	
Dumping System		Manual	
Debris Hopper Capacity	l	50	
Filtration		Stage 1	Paper (SW20) Polyester (SW20T)
		Stage 2	HEPA (Optional)
Battery Specification	Manufacturer	Trojan	
	Model	T1275-AES	
	Quantity	1	
	Voltage / Capacity	12V / 130AH	
	Dimensions LxWxH (in)	13 x 7.1 x 11	
	Weight, Each (lbs)	83	
Productivity Rate	ft ² /hr	24,490	27,980
Machine dimensions (L x W x H)	in	49.8 x 26 x 35.4	
Machine Weight without batteries	lbs	167	174
