

COUNTER-MOUNT FOAM DISPENSING SYSTEMS FROM GOJO

The Superior Counter-Mount
Handwash Experience

SMALL SPACES, BIG OPPORTUNITIES

YOUR RESTROOMS MAKE A STATEMENT ABOUT YOUR FACILITY.

In fact, 93% of Americans believe the condition of workplace restrooms is an indicator of how a company values its workforce.¹ Everyone from employees to guests sees the quality of your restrooms, and if they're sub-par, that reflects on you.

COMMON ISSUES WITH OTHER COUNTER-MOUNT DISPENSING SYSTEMS INCLUDE:

SOAP BUILDUP

Clogs the nozzle and leads to complaints that the soap is empty, even when it's not.

BREAKAGE

Lower quality systems can fail, resulting in down time and added costs while replacements are ordered.

INCREASED MAINTENANCE

Smaller reservoirs mean frequent refills, spills and opportunities for contamination.

LOW-QUALITY SOAP

Bulk formulas can be less appealing than GOJO Foam Soaps, and may affect your image.

Along with sending a poor message, the additional upkeep takes time away from your maintenance staff.

THERE'S A BETTER WAY
