

APP USER GUIDE

24/7 HELP For 24/7 customer support, visit feit.com/help

System Requirements
Minimum: iOS 11.0, Android™ 6.0 Marshmallow or higher
- Dedicated 2.4GHz Wi-Fi Network -

Your screen images may differ from this user guide.

BEFORE USING THIS USER GUIDE FOR INCLUDED INSTALLATION GUIDE FOR PROPER PRODUCT INSTALLATION.

NOTE: Only works with 2.4GHz Wi-Fi networks.

Go to your Wi-Fi settings and connect your phone to your 2.4GHz Wi-Fi network.

Set Up Device

- Download the **Feit Electric** app.
- Launch the **Feit Electric** app. Enter an email address to register, then tap **Continue**. A verification code will be sent to your email.
- Create a password then tap **Done**.

Permissions & Location Access

- Allow notifications (highly recommended).
- Allow the **Feit Electric** app to access your location to help connect your Neon Flex light.

Enable Bluetooth

Enable Bluetooth on your smart device to facilitate simple pairing.

Simple Pairing Mode

- Make sure the Neon Flex Light is blinking, then tap **Add Device** or the plus icon (+) on the upper right corner.

NOTE: If your Neon Flex light is not flashing red, then press and hold the power button for 5 seconds or until the unit starts to flash white.

- Select one Neon Flex Light from the list. Tap the plus icon (+).

- After confirming that you are on a 2.4GHz Wi-Fi network, enter your password then tap **Confirm**.

- The status window will appear and show progress toward set-up.
- To rename press next, tap the **Pen** icon, enter the new name and tap **Done**. The Neon Flex Light is now ready to be controlled with the **Feit Electric** app.

NOTE: If unsuccessful, the **Failed to Add** screen will appear. Quit the app and repeat the previous steps.

NOTE: Constant power to the Neon Flex Light is required at all times.

Alternative Set-up Method EZ Mode

- Tap the plus icon (+) in the upper right corner.
- Tap the **Add Device** button.

NOTE: Use **EZ Mode** to set up multiple smart products at the same time or if there are issues with simple pairing.

- Tap **Lighting**, then select **Neon Flex Light**.

- Tap the upper right corner and make sure you have **EZ Mode** selected. Follow steps 4-6 from **Simple Pairing Mode** to complete setup.

Features

- Individual Neon Flex Light On/Off**
Tap the Neon Flex Light icon to turn the Strip Light On/Off.
- Individual Neon Flex Light Operation**
Press and hold the Neon Flex Light icon for two seconds to enter operation.

Dimming

- Tap and hold the **Dimming** bar at the bottom of the screen. Slide the dimming bar left or right to set the brightness level. Tabs above the dimmer bar allow you to choose desired colors or color combinations.

Custom Color Changing

- Tap the **Squiggly line** icon as shown below on your screen. Tap your desired color. Then tap the Neon Flex Light sections to fill in with your desired color.

Music

- Tap the **Music** icon to sync your light with the rhythm of music. Tap **Local Mode** to sync your light to your music without remaining on the app. Tap **App Mode** to sync your light to music only when the app is open.

Scene

- Tap the **Color** icon in the bottom of the screen. Tap the desired Scene from the middle of your screen.

Modify

- Tap the **Add +** button from the top right. Choose a Scene style option from the top of your screen. Tap **New Scene** (1) to name your scene, then tap **Confirm**. Tap **Preview** (2) to view the effect on your Neon Flex Light. Tap **Save** (3) to lock in desired effect.

- There are up to 16 **scene** styles to choose from.
- Customize your color options using the color bar.

Plan

- Tap the **Other** icon in the bottom right of your screen.

- Tap **Plan**.

- Tap the **Countdown** toggle button.
- Set the countdown to turn the light off by scrolling up or down on the **Hour**, **Minute** and **Second**. Tap **Save** in the upper right hand corner once you have set your desired time.

Neon Flex Light Length

- If you'd like to adjust how much of the neon flex you'd like to animate drag the slider right for a max of 3m and minimum of 1.5m.

Groups

- Tap the **Groups** icon at the bottom of the app home screen.
- Tap on **Create Group**.
- Tap on **Neon Flex Light**.

NOTE: To create groups you will need at least two Neon Flex Light. You can only group a Neon Flex Light with other Neon Flex Lights.

- Select the Neon Flex Lights that you want to group.
- Tap the group name and enter the name of the group.

- Once the group is named and the Neon Flex Lights are selected, tap **Save** in the upper right corner.
- Tap the **Manage Groups** icon.
- Tap the context menu in the upper right corner (☰).
- Tap **Manage Group**.

- Select the group to edit.
- Once selected, tap **Edit** in the upper right hand corner.
- Rename the group or remove a Neon Flex Light from the group. Once complete, tap **Save** in the upper right corner.

- Tap **Manage Group**.

13 Delete Groups

Tap the **Groups** icon.

14 Tap the context menu in the upper right corner (•••).

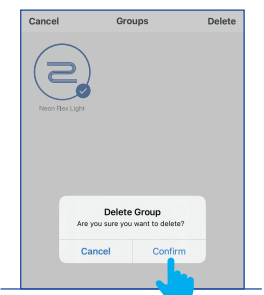

15 Tap **Delete Group**.

16 Select the group to delete. Once selected, tap **Delete Group** in the upper right corner.

17 Tap **Confirm**.

Share Control of a Device (Two Methods)

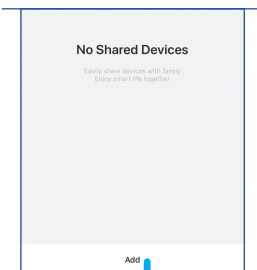

1 **Method 1:** Tap the **Profile** icon, then tap **Share Devices**.

A **Method 2:** From the Neon Flex Light's settings menu, tap the **Pen** icon located in the upper right corner. Then tap **Share Devices**.

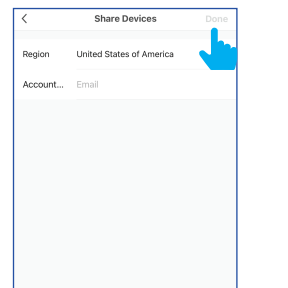

2 Tap **Add** at the bottom of the screen.

3 Select the device that you wish to share. Tap **Sharing** in the upper right corner.

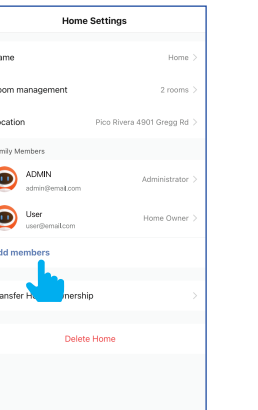

4 Enter the account name of the person you want to share with (this is typically their email address). Then tap **Done** when prompted.

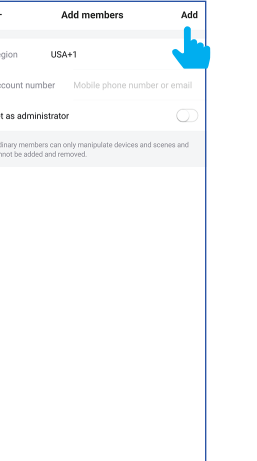

NOTE: New members must set up an account before sharing is possible.

Share Control of All Devices Within a Location

1 From the home screen, tap **Profile**, then **Location Management**, then the location you would like to share. Tap **Add members**.

2 Enter the new member's email address then tap **Add**.

Room Management

1 Tap the three dots from the home menu, then tap **Room Management**.

2 Tap **Add a Room**.

3 Tap on a preset room name or create your own.

4 Add individual lamps by tapping on the icon (+) next to each Neon Flex Light's name.

5 When finished, tap **Save** in the upper right corner.

6 Remove individual Neon Flex Light by tapping on the icon (-) next to each Neon Flex Light's name.

Home Management

1 Tap **Home** from the main menu, then tap **Location Management**.

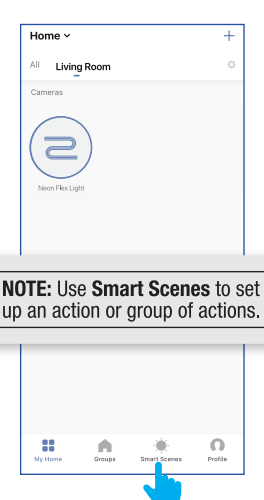

2 Tap **Add Location** to indicate where the bulbs are located.

Smart Scenes

1 From the **My Home** page, tap **Smart Scenes** at the bottom of screen.

NOTE: Use **Smart Scenes** to set up an action or group of actions.

2 In the **Smart Scenes** tab, tap the plus icon (+).

3 Tap on **Launch Scenes**.

4 Tap on **Run the device**.

5 Select your device to initiate an action.

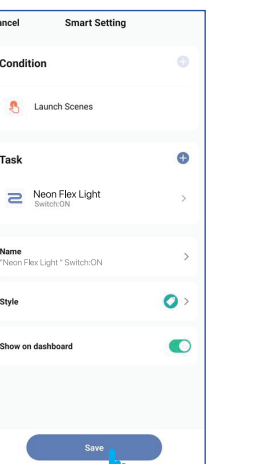

6 On the **Select Function** screen, tap on the action you want the device to perform.

A On the Switch screen, tap On or Off.

7 Review your scene, edit them if necessary, then **Save**.

8 Your action(s) will appear under **Scene** tab.

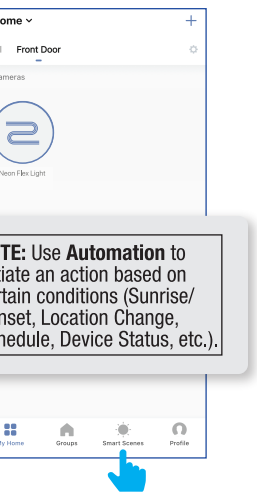

A It will also appear on the top of your **My Home** screen. Tap to execute your action(s).

Automation

1 From the **My Home** page, tap **Smart Scenes** at the bottom of screen.

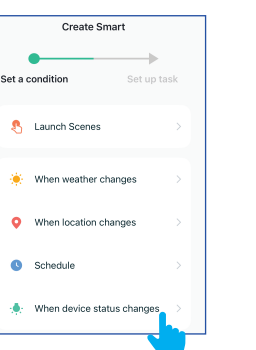

NOTE: Use **Automation** to initiate an action based on certain conditions (Sunrise/Sunset, Location Change, Schedule, Device Status, etc.).

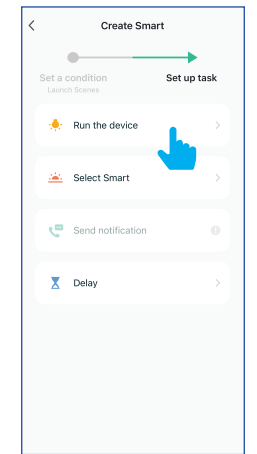

2 Tap **Automation** at the top of the screen, and then tap on plus icon (+).

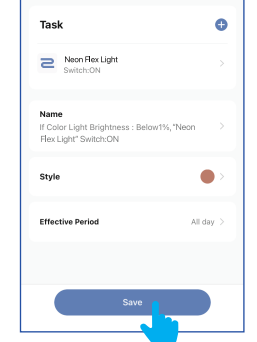

3 Set a **condition** you would like to trigger.

4 Set up a **task** you would like to automate.

5 Review your automations, edit them if necessary, then **Save**.

6 Your automation will appear under the **Automation** tab.

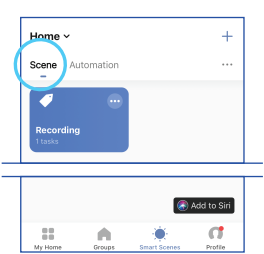

Enable Siri Shortcuts® (for use with iPhone)

1 From the **My Home** page, tap **Smart Scenes** at the bottom of screen.

NOTE: Use **Siri** to activate a scene through voice control. If you have not created a scene, see the **Smart Scenes** section.

2 In the **Scene** tab, tap **Add to Siri** located at the bottom of the screen.

3 In the **Siri Shortcut** screen, tap on the action you would like to add to **Siri**.

4 On the **"Hey Siri"** screen, tap on the device name to edit it. Tap **Done** at the bottom of the screen.

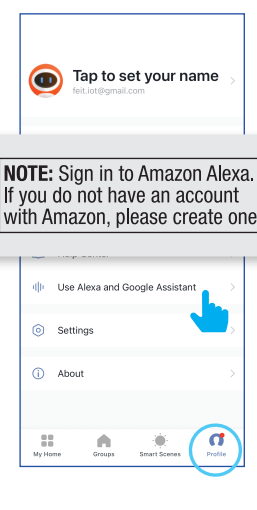

5 Now you can use the **"Hey Siri"** command to control this action from your iOS device. **"Hey Siri, turn on Neon Flex Light."**
