

# Broadcast Intercom System

LEDs show unit status including in-use, mute, and monitor.

Convenient hands-free reply enables effortless communication throughout the home.

Classic design blends with any décor and complements lyriQ Audio System in Classic Design.

Installation based on Cat 5 wiring is easy and efficient.

IC1400-XX  
Broadcast Intercom 4-Location Kit

## INNOVATIVE TECHNOLOGY

### CONVENIENT COMMUNICATION

Main console includes hands-free reply capabilities, while all units feature mute and monitor functions to enable easy, reliable communication throughout the home. Monitor multiple rooms from any unit, or use the “do not disturb” function to mute specific rooms.

Intercom Main Console  
(IC1002-XX)

### EASY INTEGRATION

The Broadcast System is designed to work with the lyriQ Audio System in the Classic Design. Just include an Audio Interrupt Module in the On-Q enclosure to mute whole house music during an intercom page.

Desktop Unit  
(F9018-XX)

### EFFICIENT INSTALLATION

Built on Cat 5 cabling, the Broadcast Intercom System includes easy installation features such as convenient RJ45 connections.

## SYSTEM FEATURES

- Up to 12 room or patio units per system
- Separate microphone and high-performance speaker in each unit
- Allows monitoring of multiple units at same time
- Includes door and gate release support
- Trims in standard decorator plates
- Easily integrates with lyriQ Audio System
- Efficient Cat 5 installation
- Convenient RJ45 connections
- Units mount in standard double- or triple-gang electrical boxes

### BROADCAST INTERCOM SYSTEM INSTALLATION AT-A-GLANCE

1. Run a single Cat 5 cable to any location where a Room, Patio, or Door Unit will be installed.
2. Run two Cat 5 cables to the location where the Main Console Unit will be installed.
3. Use the appropriate size gang box for the type of unit to be installed.
4. All cabling needs to home run back to the Intercom Module which resides in the On-Q enclosure.

301 Fulling Mill Road, Suite G  
Middletown, PA 17057
