Safety Information

For your safety, always remember to:

- ❑ Turn off the power supply at the fuse or circuit breaker box before you install the fixture.
- ❑ Ground the fixture to avoid potential electric shock and to ensure reliable operation.
- ❑ Double-check all connections to be sure they are tight and correct.
- ❑ Wear rubber soled shoes and work on a sturdy wooden ladder.
- ❑ Account for small parts and destroy packing material, as these may be hazardous to children.

This fixture is designed for use in a circuit protected by a fuse or circuit breaker. It is also designed to be installed in accordance with local electrical codes. If you are unsure about your wiring, consult a qualified electrician or local electrical inspector, and check your local electrical code.

Account for small parts and destroy packing material, as these may be hazardous to children.

WARNING: RISK OF CUTS. Some metal parts in the fixture may have sharp edges. To prevent cuts and scrapes, wear gloves when handling the parts.

Product Specifications

- 120 VAC, 60Hz, 26W max
- Suitable for wet locations

WARNING: RISK OF SHOCK. House electric current can cause painful shock or serious injury unless handled properly.

CAUTION: Turn off the main power at the circuit breaker before installing the fixture, in order to prevent possible shock.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTICE: All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instructions.

FCC STATEMENT

Supplier's Declaration of Conformity:

47 CFR § 2.1077 Compliance Information

Responsible Party: Feit Electric Company

4901 Gregg Road, Pico Rivera, CA 90660, USA

www.feit.com

Unique Identifier: S10.5WM/840/BZ

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. Any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Care and Maintenance

Periodically clean the fixture and diffuser using a mild, non-abrasive cleaner and soft cloth. When cleaning the fixture, make sure the power is turned off. Do not spray cleaner directly onto any part of the fixture or LEDs.

Limited Warranty

This product is warranted to be free from defects in workmanship and materials for up to 3 years from date of purchase. If the product fails within the warranty period, please contact Feit Electric at info@feit.com, visit feit.com/contact-us for instructions on replacement or refund. REPLACEMENT OR REFUND IS YOUR SOLE REMEDY. EXCEPT TO THE EXTENT PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTIES ARE LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES IS HEREBY EXPRESSLY EXCLUDED. Some states and provinces do not allow the exclusion of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province to province.

TOOLS REQUIRED (NOT INCLUDED)

HARDWARE INCLUDED

NOTE: Hardware not shown to actual size.

Part	Description	Quantity
AA	Wall Light	1
BB	Mounting Bracket	1
CC	Wire Nuts	3
DD	Fixture Screws (8-32 x 0.375")	2
EE	J-Box Mounting Screws (8-32 x 0.75")	2
FF	Sensor Cover	1

Flush J-Box Mount Installation

1 Turning off the Power

- Turn the power OFF at the switch and fusebox or the circuit breaker.

2 Remove the Fixture from Bracket

- Remove the Wall Light (AA) from the Mounting Bracket (BB) by unscrewing the Fixture Screws (DD).

3 Installing the Mounting Bracket

- Make sure power is off. Feed power supply wires through center Mounting Bracket's hole. Install Mounting Bracket (BB) onto the J-box using the 2 Mounting Screws (EE).

4 Connecting the Wires

- Using the Wire Nuts (CC) provided, connect the green grounding wire from the Wall Light (AA) to the house ground. Connect the fixture's white wire to the neutral house wire. Connect the fixture's black wire to the black power supply wire.

5 Securing the Fixture

- Mount the Wall Light (AA) and Fixture Screws (DD) onto the Mounting Bracket (BB). Hand tighten the Fixture Screws (DD) with a screw driver.

6 Apply Sealant

- Once fixture is secured, apply a silicone sealant to the top side, the side edges of the fixture and the mounting surface. (Do not apply at the bottom side of the fixture)

7 Turn Power On

- Turn power back on at the wall switch, circuit breaker or fusebox.

Dusk to Dawn Operation

- ☐ The light will turn on at dusk.
- ☐ The light will remain on through the night until dawn.
- ☐ At dawn, the light will turn off.

NOTE: To make sure this function works properly, always keep the wall switch in the “ON” position.

NOTE: A sensor cover (FF) is provided which can be used to block out light and bypass the sensor. This will keep the light continuous on and fixture can be controlled to turn on/off through the wall switch or a master photocell (including daytime).

Problem	Possible Cause	Solution
The light will not illuminate.	The power is off.	Make sure the power supply is on.
	There is a faulty wire connection.	Check the wiring. Contact a qualified and licensed electrician if you are not comfortable troubleshooting wiring problems.
	There is a faulty wire switch.	Test or replace the switch.
The light does not automatically turn off during daylight hours.	The photocell is covered.	1. Remove any debris and clean the photosensor. 2. Remove sensor cover
Security light cycles ON and OFF continuously.	Dusk-to-Dawn sensor is sensing reflected light from the security light or other surrounding light source.	1. Ensure no reflective materials are near to the wall pack. 2. Relocate the fixture to a different location where it no longer causes reflected light.
