

## DYNAREST AIRFLOAT 500

### Air Mattress with Digital Pump

ITEM 10447 – 36"

The DynaRest Airfloat 500 is a convenient, medical grade air mattress designed with user comfort in mind. The mattress is equipped with a digital air pump and air pressure controls to directly customize the firmness of the mattress. The Airfloat 500 has three settings: static mode, which is ideal for patient transfers, and alternating cycle mode, which provides cell inflation for pressure redistribution, and seat inflate mode to assist patients in sitting up.

- Alternating pressure mattress replacement system
- 3 modes: Alternating cycle, static mode, and seat function
- Low pressure indicator light and audible alarm
- Weight Capacity 350 lb.
- 1 per case
