

The diagram illustrates a network structure. At the top level, there is a 'Network' box. This network is composed of two sub-networks: 'Network 1' and 'Network 2'. 'Network 1' contains three nodes: 'Node 1', 'Node 2', and 'Node 3'. 'Network 2' contains two nodes: 'Node 4' and 'Node 5'. The connections show that 'Node 1', 'Node 2', and 'Node 3' are all connected to 'Network 1', while 'Node 4' and 'Node 5' are connected to 'Network 2'.
