High-foaming liquid detergent

Description

Allclean is a high-foaming liquid detergent designed for general-purpose application in the food, beverage and pharmaceutical industries.

Benefits

- It contains a concentrated blend of high foaming detergents and emulsifiers. Its balanced neutral formulation provides effective cleaning especially against oils and fats. It can be used on most types of surfaces including plastics and soft metals such as aluminum;
- Highly economical;
- Suitable for manual use;
- Suitable for hard water.

Use instructions

After pre-rinse using lukewarm water (50°C), apply the product with the **Diversey** foam system during 10 – 15 minutes at room temperature, scrub and brush critical points with excess of soil and rinse well with clean water. Final rinse must be done with potable water. Use **AllClean** at concentrations between 1.0 - 5.0% w/v depending on the type and degree of soiling. The definition of the ideal process conditions (concentration, temperature, contact time) depends on the application. Consult the technical specialist from **Diversey**.

Technical data

Appearance	Viscous, pale yellow liquid
Relative density at 25°C	1,04 g/mL
pH (1% solution) at 25°C	9,3

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Store in original closed containers or (where applicable) in an approved bulk tank, away from extreme temperatures. Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.

Chemical Composition

Anionic surfactant, non-ionic surfactants, phosphate, silicate, alkalizing, sequestrant, preservative, additive, dye and water.

Shelf Life

24 months
