

REUSABLE UNDERPADS

Dynarex Reusable Underpads are high-quality washable pads designed to provide effective protection against fluids and leakage for patients with disabilities and / or chronic incontinence. The Underpads feature a brushed polyester top layer quilted into a polyester / rayon soaker for optimal comfort and absorbency.

- Designed to provide fluid protection for patients with disabilities and / or chronic incontinence
- 100% brushed polyester quilted top layer allows for optimal comfort
- Polyester / Rayon soaker provides improved absorbency
- Non-skid, knitted PVC backing helps minimize the risk of leakage
- Convenient, machine washable pads crafted for easy cleaning and long-lasting use
- Not made with natural rubber latex
