# CLEARion™ Elite See Thru Electric Fireplace

The CLEARion™ Elite See Thru Electric Fireplace is the first ever truly see through electric fireplace. A CLEARion™ Elite Electric Fireplace can be hardwired directly into your electrical system creating a seamlessly relaxing environment in two rooms. This unique fireplace can heat separate rooms at different rates, increasing the comfort of two spaces at the same time conveniently controlled with two remotes. A patent pending privacy mode allows you to change the transparency when privacy is desired. Customize this fireplace with either a sparkling crystal media ember bed or the hand-painted logs with Topaz glass embers; both sets are included. Illuminated from below by LED, color-changing lights, both ember bed styles glow with a luxurious feel that can be seen from both rooms.

## Product Features

The CLEARion™ Elite Electric Fireplace is one of grandeur! A privacy mode allows users to control the transparency with three different settings. **Fully transparent** for a truly SEE THRU experience from one room to another. **Semi-transparent** creates a partially SEE THRU experience by blocking some light and detail. Lastly, the **opaque** setting completely blocks any visual to the adjoining room allowing full privacy when it is needed.

**Electric Fireplace**  
Economical to Operate

**Cost Efficient**  
Enhance a room for only pennies a day

**Hard wire capable**  
Must be hard wired into existing home wiring

**Eco-Friendly**  
Only heat the rooms you use most

**ULTRA BRIGHT™ LED Lights**  
Provide day or night intensity

**Multi-function remote**  
Controls flame brightness, color, speed, blower, heat output timer and more.

**Adjustable Flame Color**  
Feature the option of orange, blue or a combination of both

**Adjustable temperature**  
Adjust the heat being produced by choosing a temperature
