

FRICTION HINGE KIT

FOR LIPPERT ENTRY DOORS

THE HINGE WITH CONTROL

Open and close your RV entry door smoothly, slowly, and with peace of mind. The Friction Hinge from Lippert is an easy upgrade that allows you to leave your door in the exact position you need. With our hinge, you can forget about installing gas struts or relying on unattractive door catches that can easily break and cause costly damage to the sidewalls of your RV. The Friction Hinge is a permanent solution for your RV's entry door. No more buying quick-fix products that need replaced time and time again. Easily add it to your existing hinge system, and you're good to go.

**Whenever, wherever, we
make your experience better.**

THE HINGE WITH CONTROL

Added protection

Withstands up to 25 mph wind gusts, our hinge keeps your door from slamming shut or flying open

DIY installation

Installation is easy and seamless. You don't even need to remove your door or existing hinges

Standard entry hinge

With no additional hardware required, the Friction Hinge is an easy, inexpensive way to upgrade your entry door without installing gas struts or continually replacing unattractive door catches that easily break

With friction hinge

Fit for your door

Compatible with all Lippert entry doors and Challenger Door Series 450, 805, 950, 975, and 3000
