# Glass Fabrication

If fabricating custom glass for the Polaris Double Slider Shower Hardware Kit, please use the specs below for the Sliding Door Panel.

## 60" Polaris Double Slider Door Panel Dimensions

- Designed for Use With  $\frac{5}{16}$ " (8mm) or  $\frac{3}{8}$ " (10mm) Monolithic Tempered Glass
- Do not use Laminated Glass.
- Maximum Recommended Glass Panel weight: 90 lbs.

Sliding Shower Door Width:

Recommended Door Width:  
Half of Opening Width + 1"

Sliding Shower Door Height:

Overall Height minus  $\frac{3}{8}$ " (10 mm)

**Important:** Drawing not shown to scale. Shower Rod is cut  $\frac{1}{2}$ " (13mm) less than Opening Width. Use wall-to-wall tight dimension. Overall Height is height from threshold/floor to top of glass.
