3M™ Clean & Shine Daily Floor Enhancer

Two tasks. One product.

Replace your neutral daily cleaner and your periodic restorative product with a single, labor-saving daily cleaner.

Choose a daily cleaner that does double duty.

As facility-management priorities shift, so will the attention to allocation of labor and product cost. 3M™ Clean & Shine Daily Floor Enhancer is a two-in-one product that may help to reduce your labor and chemical usage while meeting the standards you need for daily floor cleaning — and improving your floors' qualities over time.

- Enhances the gloss of floors — and maintains those that already have a high gloss — as part of your daily cleaning routine, reducing the need for burnishing.
- Reduces the frequency of major floor care projects, like top scrubbing and stripping, that disrupt your facility.
- Has superior cleaning ability when compared to other neutral cleaners and restorers.
- Won't haze or damage floor finish when used daily as directed.
- This product meets Green Seal's globally recognized environmental leadership standard.

For best results, use all of the products in the 3M™ Advanced Floor Care System to help you achieve a beautiful, high-gloss floor and help reduce your maintenance costs.
