Cranker™ Mechanical Dispenser

A manual dispensing unit that allows for body filler to be dispensed at a controlled rate. No air required. Works with all 3 and 5-gallon dispensing containers. Solid, quality construction, easy to operate. Quick and mess-free dispensing saves time and material costs. Simple, trouble-free design.

Dispensa-Mat™ Air Dispenser

An air-powered body filler dispensing system for 3 & 5-gallon air containers of filler. Works in conjunction with a specialized, built-in piston in each container of filler to force the filler out through a dispensing valve at the bottom. An air regulator, preset at the factory, permits only 10 lbs. of air pressure into the container to drive the piston. Must be used with regulator. Saves time, no mess, less waste.
