

Good Sense®

Liquid Odor Counteractant Concentrate

A full line of concentrated odor counteractants formulated to instantly neutralize odors.

Features & Benefits

- Fast-acting, odor counteractants that neutralize and eliminate unpleasant odors instead of masking them
- Available in green apple, no smoke, and fresh scent
- Reduces malodors in the air and on carpets and hard surfaces
- Effective on tough odors from urine, mildew, vomit, tobacco, smoke, and food
- Concentrated formulations work for just pennies per diluted gallon

Applications

- Use as a room spray to control odors in hospitality, restrooms, carpets and anywhere malodors exist

Use instructions

As a space spray

- Fill, dilute or dispense product according to label directions.
- Spray into air or onto surfaces where malodors are noticeable.

On carpets

- Spray into air or onto surfaces where malodors are noticeable.
- If treating carpet for first time, check for color fastness before using.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
