The Answer to Everything Wrong with Cloth

The **Easy** System

- Simplified process and efficiency in operations
- Compatible with multiple cleaner/disinfectant chemistries
- Uses less chemical than cloth systems
- Low lint substrates
- Eliminates laundry concerns

EasyMop

- The single-use floor, wall and large area cleaning tool that rivals new textile cleaning performance.
- Easy-to-use solution for mopping efficiency and effectiveness.
- For use with TASKI® UltraPlus Mop Handle and Frame for optimal ergonomics and performance.

EasyWipe

- Individual wipes reduce the risk of surface cross-contamination, chemical splashes and spills. Large 12" x 10.5" wipes speed large area cleaning.
- Convenient, portable bucket dispenses user-wetted wipes one at a time, optimizing chemical usage.
- Bucket is reclosable / refillable / recyclable.

Easy Steps. Easy Process.

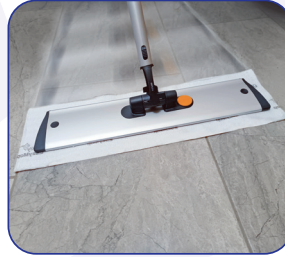

EasyMop: ease of use means fast, efficient floor and wall cleaning.

After wetting, place EasyMop pad on floor with logo pattern facing up.

Center mop frame over mop pad and gently press down on frame.

Mop floor in even strokes, discarding and replacing pad when visibly dirty.

Lock mop frame into position for walls and large surfaces.

EasyWipe: streamlined, effective surface cleaning and disinfection.

Remove bucket lid, fill bucket with cleaning solution until wipes are saturated.

Feed wipes from center of roll through lid opening. Close lid.

Dispense wipe and clean surfaces. If wipe is too wet, squeeze excess on surface to be cleaned.

Dispose of visibly soiled wipes. Dispense a new wipe when moving to clean a different surface.
