

1. Introduction
 This document provides a detailed overview of the project's objectives, scope, and methodology. The primary goal is to develop a robust system that addresses the identified challenges and meets the specified requirements. The project is structured into several key phases, each with defined deliverables and milestones.

2. Objectives and Scope
 The project aims to achieve the following objectives:

- Develop a scalable and secure architecture.
- Implement core functionality within the defined scope.
- Ensure high performance and reliability under various load conditions.
- Facilitate easy integration with existing systems.

The project scope includes the design, development, testing, and deployment of the system. It covers the integration of various components and the implementation of security protocols.

Project Schedule		
Phase	Start Date	End Date
Phase 1: Planning	2023-01-15	2023-02-15
Phase 2: Design	2023-02-15	2023-03-15
Phase 3: Development	2023-03-15	2023-05-15
Phase 4: Testing	2023-05-15	2023-06-15
Phase 5: Deployment	2023-06-15	2023-07-15

SYSTEM ARCHITECTURE

System Components		
Component	Function	Dependencies
Client Application	Handles user input and displays output.	Network, Server
Server Application	Processes requests and manages data.	Database, Client
Database	Stores and retrieves data.	Server
