

360 SIPHON®

ROOF VENT CAP

ELIMINATE TANK ODORS FROM THE SOURCE

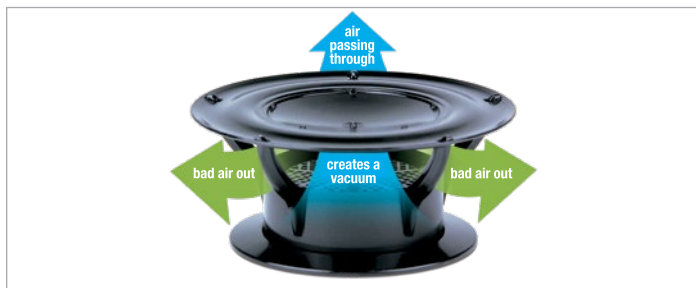

The 360 Siphon RV holding tank vent cap removes odors from the source — the holding tanks — and exhausts them out the roof vent before they have a chance to invade the RV living space. By design, the patented 360 Siphon can only create an updraft, expelling odors and fostering an oxygen-rich environment to speed up waste breakdown. Even environmentally-friendly tank additives can take up to 48 hours after use to fully oxygenate a standard holding tank. The 360 Siphon acts immediately after installation in any wind condition (with or without a breeze) to provide the ideal environment for proper decomposition, so caustic chemicals and perfumed cover-ups are no longer needed.

Whenever, wherever, we
make your experience better.

ELIMINATE TANK ODORS FROM THE SOURCE

How it works

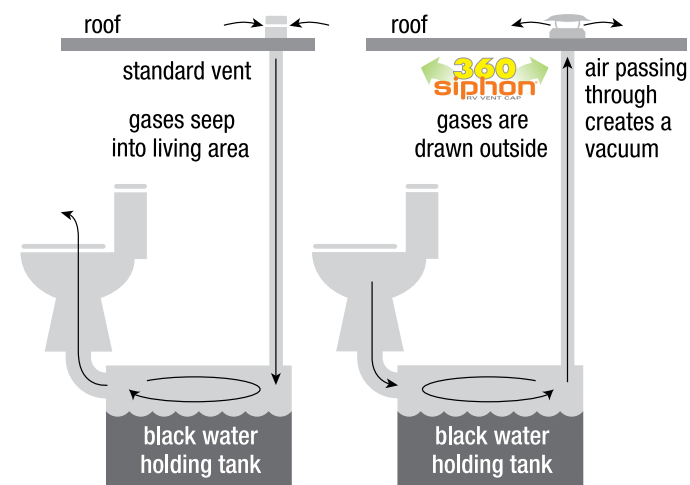

The 360 Siphon creates an updraft to exhaust odors through the roof vent, before they invade the RV living space - giving campers a healthier, breathable environment, in any wind condition

Built to last

Durably built with polycarbonate, the sophisticated, patented design of this vent has no moving parts - making maintenance and installation as simple as possible

RV vent cap upgrade eliminates odors at the source by creating an updraft to exhaust odors through the roof vent

Additional Features

- Prevents odors and gases from invading RV living space
- Speeds up waste breakdown, eliminating the need for chemicals
- Sophisticated, patented design with no moving parts
- Works in any wind condition
- Made of strong polycarbonate
- Available in black or white
- Easy installation and universal fit
- Built-in bug screen
- No maintenance

Part #	Description	Color
389380	360 Siphon roof vent cap	Black
