

# Double Kinetic Garden Stake

## Assembly Instructions

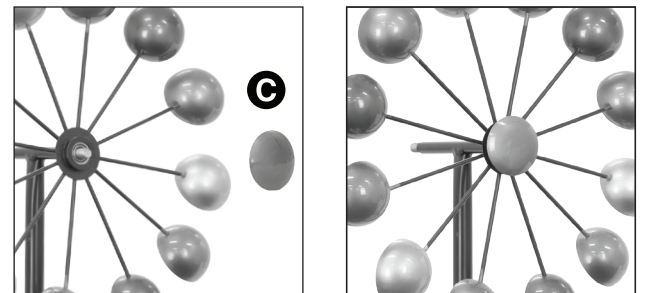

Step 1: Attach small wheel (A) to T-pole (D) by inserting small wheel (A) into T-pole (D).

**Note:** Small wheel should face-out on T-pole.

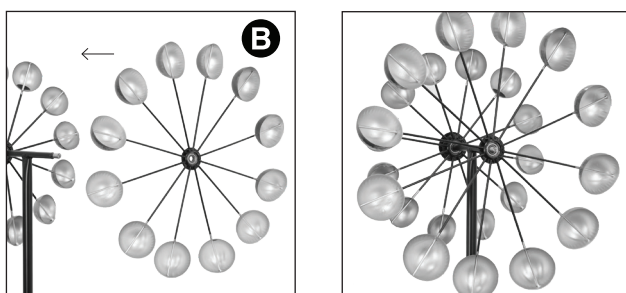

Step 2: Screw on nut (C) into T-pole (D) (the result of step 1) by turning it to the right until it is firmly tightened.

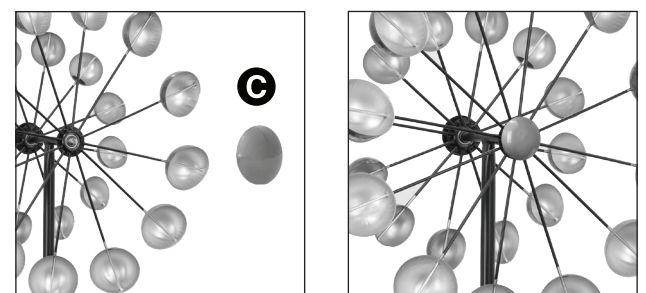

Step 3: Attach large wheel (B) to T-pole (D) by inserting large wheel (B) into T-pole (D).

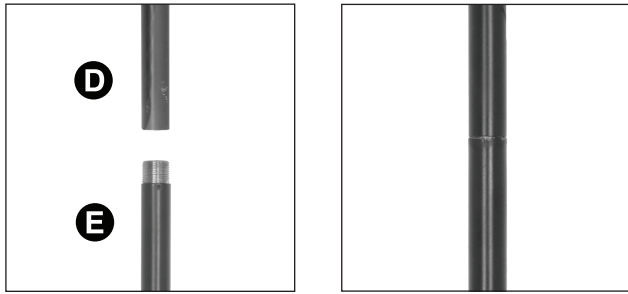

**Note:** Large wheel should face-in on T-pole.

Step 4: Screw on nut (C) into T-pole (D) (the result of step 3) by turning it to the right until it is firmly tightened.

Step 5: Attach middle pole (E) to T-pole (D) (the result of step 4) by turning it to the right until it is firmly tightened.

**Lay Assembly on the ground for the following steps.**

Slide the stake support (F) into the stake base (G). Then attach middle pole (E) (the result of step 5) to stake base (G) by turning it to the right until it is firmly tightened. When everything is assembled, insert stake base firmly into the ground. For best results, install on flat ground and ensure that the stake is 90 degrees vertical to the ground.
