4. First-aid Measures

General Information: Get medical attention if irritation develops and persists.

Following Eye Contact: Protect unharmed eye. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

Following Ingestion: Rinse mouth. Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an

unconscious person.

Following Inhalation: Move to fresh air.

Following Skin Contact: Wash off immediately with soap and plenty of water. If a person feels unwell or symptoms of skin irritation appear, consult a physician. In case of contact, wash skin immediately with soap and water. If rash or irritation develops, consult a physician.

4.3 MOST IMPORTANT SYMPTOMS: Skin sensitization including itching, redness, flaking or peeling. Tissue damage in the eye, including redness, irritation & swelling, corneal opacity or lesions, discoloration, perforation or serious physical decay of vision, which is not fully reversible within 21 days.

Notes to Physician: Treat symptomatically.

5. Fire-fighting Measures

5.1 EXTINGUISHING MEDIA: Use water spray, fog, alcohol-resistant foam, sand, or dry chemical.

5.2 UNSUITABLE EXTINGUISHING MEDIA: No Information

5.3 UNUSUAL FIRE AND EXPLOSION HAZARDS: Hazardous decomposition products formed under fire conditions.

5.4 SPECIAL FIRE FIGHTING PROCEDURES: Standard procedure for chemical fires. Immediate medical attention is required. Note to physician: Persons with skin, airway, and/or central nervous system diseases may run a greater risk if exposed to this material. The material is very corrosive to the eyes and may cause corneal inflammation (keratitis). It may be difficult to maintain washing of the eyes for 15 minutes due to great pain. First, perform local anesthetic to ensure effective flushing. Ingestion of the material may cause severe wounds, inflammation, and possible perforation of the upper part of the digestive tract, with heavy bleeding and loss of fluid. Inhalation of this material while vomiting may cause severe lung injuries. Any other effect is to be treated symptomatically. Move containers from fire area if you can do so without risk. Keep containers and surroundings cool with water spray. Evacuate personnel to safe areas. FULL PROTECTIVE EQUIPMENT INCLUDING SELF-CONTAINED BREATHING APPARATUS.

5.5 FIRE FIGHTING EQUIPMENT: In the event of fire, wear self-contained breathing apparatus.

6. Accidental Release Measures

For Non-Emergency Personnel: Use personal protective equipment. Prevent further leakage or spillage if safe to do so. Only trained personnel wearing protective equipment should handle spill cleanup. Avoid personal contact.

6.2 ENVIRONMENTAL PRECAUTIONS: Avoid discharge into drains, water courses or onto ground. Do not empty into drains. Do not allow material to contaminate ground water system.

6.3 METHODS FOR MATERIAL CONTAINMENT AND CLEANUP: Soak up with inert absorbent or adsorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust, vermiculite). Dispose of material in accordance with all national, regional, and local regulations.

7. Handling and Storage

7.1.1 SAFE HANDLING: Handle in accordance with good industrial hygiene and safety practice.

HYGENIC PRACTICES: When using do not eat or drink. Contaminated work clothing should not be allowed out of the workplace. Do not smoke.
