

Crystal Shield®

Terrazzo & Concrete Floor Protector

Patent pending formula designed for use on terrazzo, concrete, marble and other stone surfaces to enhance gloss, reduce scuffs and scratches, while providing slip resistance.

Features & Benefits

- Provides a long-lasting natural gloss appearance to the floor, while reducing the maintenance requirements to keep the floor looking beautiful
- Daily cleaning, periodic burnishing and restoring is all that is required to maintain gloss and repair coating
- Quick drying formula limits disruptions and allows for quick access
- Meets ASTM D-2047 requirement for slip resistance
- Designed to work in conjunction with the Crystal Shield® System:
 - Crystal Shield® Wet Honing and Dry Polishing Discs
 - Crystal Shield® Diamond Pads
 - Crystal Clean & Shine™/MC Stone Floor Cleaner & Rejuvenator

Applications

- Durable protectant for use on terrazzo, concrete, marble and other stone surfaces

Crystal Shield®

Terrazzo & Concrete Floor Protector

Use Instructions

- Do not dilute (when applicable)
- Do not use on surfaces colder than 50° F (10° C)
- To avoid contamination, do not return unused product to original container
- Not intended for outdoor use

NOTE: Floors will be slippery when wet or contaminated with foreign materials. Promptly clean-up spills and foreign materials. Meets ASTM D-2047 requirement for slip resistance.

- Before using the Crystal Shield® System, the user should read the Technical Safety Data Sheet for detailed directions on the safe use of the product

Preparation

- Blockade areas to be stripped, sealed or finished. Floors will be very slippery until dry.
- Strip floor using a Diversey stripper per the instructions on the stripper label
- Prepare the floor, to the desired gloss, with Crystal Shield® Wet Honing and Dry Polishing discs and Crystal Shield® Prep Pad #1

Coating

- Apply a thin, uniform coat (2500–3000 sq. ft. / gal.) of Crystal Shield® using the ProSpeed Applicator system
- Allow 20–30 minutes of dry time. Temperature, humidity and ventilation may affect drying time.
- Burnish the floor with recommended Crystal Shield® Clean & Burnish Pad #2
- Apply a second thin, uniform coat (2500–3000 sq. ft./gal.) of Crystal Shield using the ProSpeed Applicator system

Maintenance

- Dust mop or sweep
- Clean the floor with a mop or automatic scrubber using Diversey Crystal Clean & Shine according to label directions
- When appearance of the floor begins to dull, burnish the floor with using Crystal Shield® Clean & Burnish Pad #2
- Periodic use of Crystal Clean & Shine at the recommended dilution, through an autoscrubber or as a spray buff will extend burnish cycles and recoats
- Recoat traffic areas or entire floor as necessary with Crystal Shield® using the ProSpeed applicator system. Be sure make sure floor is clean of dust, marks, dirt before recoating (typically once or twice a year)

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.

NOTE: Not intended to be used on resilient flooring. Caution should be used on specialty non-resilient flooring such as decorative, dyed or stained concrete, marble and granite. Perform a small test patch in an inconspicuous area before proceeding.
