# **TOOLS REQUIRED**

Phillips Screwdriver

Level Tape

Measure

Drill

1/8"

(3mm)

Drill Bit

5/16"

(8mm)

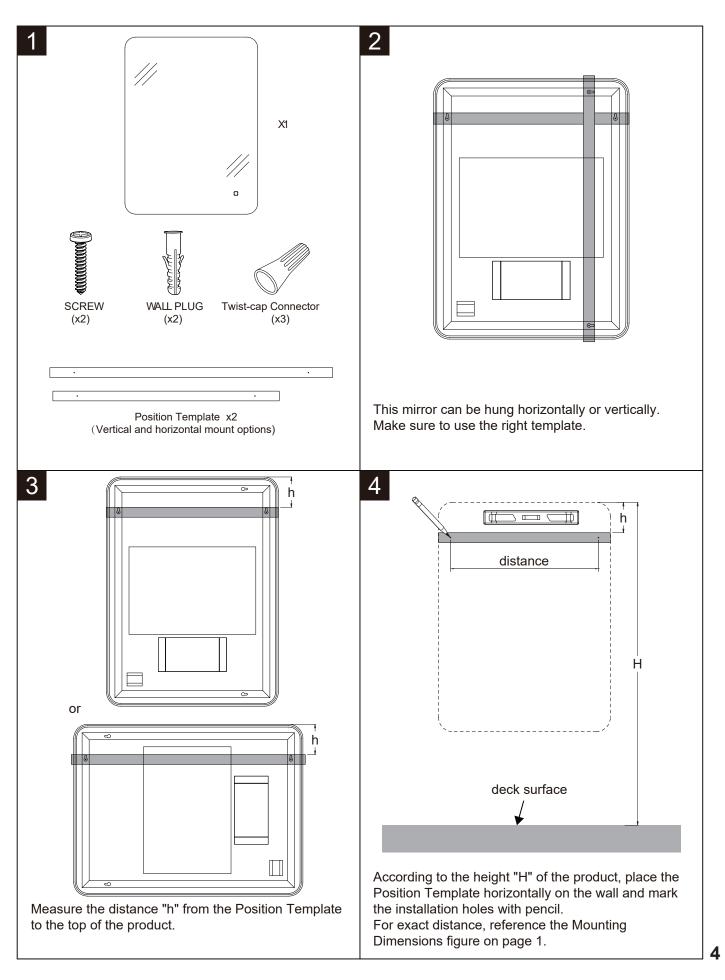

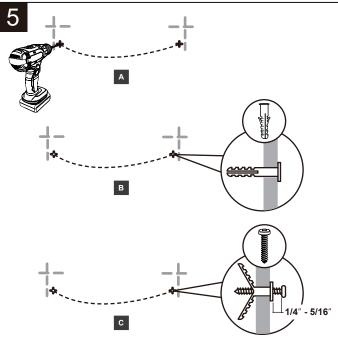

Pencil Drill Bit

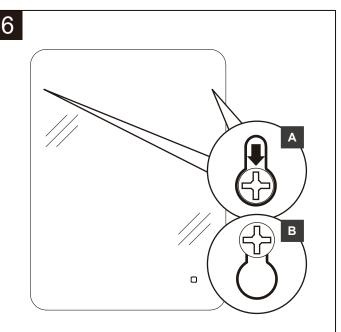

Rubber Mallet

Safety Glasses

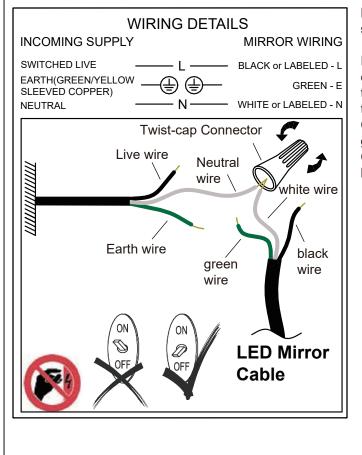

If drilling into wood, drill a 1/8" hole at each marked location (figure A) and install screws into holes. If drilling into concrete, drill a 5/16" hole at each marked location (figure A, B, C), insert wall plugs, and install screws into the wall plugs. Leave a gap of 1/4"-5/16" between the screw head and the wall.

The LED mirror is provided with a power supply cord. For the plug-in connection, place the mirror against the wall and slide down as shown. Then plug the power supply cord into the outlet to finish the installation. For the wire connection, please cut the power supply cord near the plug and connect the wire by following step 7. Then secure mirror by following step 6.

#### 7

#### Before starting the wire connection, please make sure the electricity supply has been turned off.

For the wire connection, please cut the power supply cord and strip a section of sheath and insulation from the cable. Connect the neutral (N) and live (L) wires to the mirror's power supply wires, using the Twist-cap Connectors. Connect the mirror's green wire to the grounding wire in the junction box with a Twist-cap Connector. Carefully push the wires into the junction box.

# OPERATION

Turn on the power supply before you use the mirror.

Press this key to turn the LED light on or off. The defogger operates when the LED light is turned on. Press and hold to change the color temperature from 2700-6500k. It will change gradually(2700-6500k).

# MAINTENANCE

Wipe clean with a soft damp cloth. Apply glass cleaner to cloth and do not apply directly to mirror. An occasional wiping down with a mild soap diluted in water is all that is needed to keep the mirror and aluminum parts looking new. Never use abrasive cleaners as these could damage the finish or exposed LED strips. Never use scouring powder pads, abrasive material, strong bleach or sharp instruments on metal components or glass. Test products on a small inconspicuous surface prior to use.
