

## 7-OUTLET SURGE PROTECTOR

HT705UC

## USER MANUAL

## FEATURES

- 1. ON/OFF Reset Control Switch and Circuit Breaker**  
Controls power to all outlets. The switch is also a 15A breaker. When an overload occurs, it will automatically switch off. To resume operation, ensure the overload condition is removed and reset the surge protector by switching the unit ON.
- 2. Firestop Design Advanced Metal-Oxide Varistor (MOV) with Built-In Fuses**  
Encased component dissipates surge events and potential flame, sparks and heat.
- 3. Braided Cord and Right Angle Plug**  
Easy to coil; kink and abrasion resistant cord with low profile right angle plug for easy cord management.
- 4. Advanced Protection - Surge Protected LED**  
Illuminated when protection is working properly.
- 5. Clean Power - Ground LED**  
Illuminated when properly grounded.
- 6. Seven Outlets**  
6 standard and 1 transformer spaced outlets
- 7. USB Charging Ports\***  
Connect and charge up to 2 USB devices using the surge protected USB charging ports.  
\*USB outlets cannot be used as a USB hub. This device does not transfer data.
- 8. Coaxial Cable Protection**  
Protects coaxial lines from surges and spikes.

## CAUTION

## TO REDUCE THE RISK OF ELECTRIC SHOCK:

Use only in dry locations and only indoors.

**DO NOT** plug into another relocatable power tap.

**DO NOT** "daisy chain" surge protectors.

**DO NOT** use with any aquarium equipment.

**DO NOT** use if properly grounded outlets are not available.

**DO NOT** install this device if there is less than 10 meters (30 feet) of wire between the electrical outlet and electrical service panel.

**DO NOT** use for medical or life support equipment. This device features an internal protection that will disconnect the surge protective component at the end of its useful life, but it will maintain unprotected power to the load.

## CONFORMANCE APPROVALS

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against

harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## SPECIFICATIONS

Model Number:	HT705UC
Outlets:	6 standard and 1 wide-spaced outlets 5V / 3.1A (shared)
USB Charging Rating:	5 ft
Power Cord Length:	3,480 Joules
Surge Protection:	125V / 15A / 1,875W
Electrical Rating:	UL 1449 3rd
UL Clamping Voltage:	500V (L-N, L-G, L-G)
Maximum Peak Current:	105,000A
3 AC Lines Protected:	H-N: 75,000A H-G: 15,000A N-G: 15,000A
Response Time:	(The maximum surge possible on household Wiring is 6,000 volts)
Attenuation:	Less than 1 nanosecond
EMI/RFI Filtration:	Up to 43dB
Circuit Breaker:	150 kHz to 100 MHz Resettable 15 Amp

⚠ WARNING: This product can expose you to chemicals including bisphenol A (BPA) and styrene (ABS), which is known to the State of California to cause reproductive harm and cancer. For more information, go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

## TROUBLESHOOTING

If the "Clean Power" indicator does not light when you plug in the surge protector, move the surge protector to a different grounded three-prong AC outlet. If it still does not light, return the product to dealer for assistance. If the surge protector proves to be working properly, your outlets may not be a properly grounded and need to be repaired by a professional electrician.

If the "Advanced Protection" indicator does not light, the surge protector's AC lines are no longer protected from surge. The surge protector may have received a power surge or spike beyond its specified limits that overloaded the protection circuitry and rendered it inactive. The surge protector has protected your connected equipment as designed, but it will not protect against future surges & spikes and should be replaced.
