# Better Built. Better Equipment.

Our Trident Brand of equipment starts from the ground up - at a place where intelligent design intersects with innovative technology and exceptional engineering to deliver superior cleaning equipment. Cleaning equipment that lowers your total cost of ownership, reduces your cost to clean and improves cleaning results. It's what you expect out of your equipment investment, and it's what we deliver. We're Hillyard, The Cleaning Resource, since 1907.

Technology

## Longer Life For Components Reduced Maintenance Costs

The Bx20SC body completely covers the frame and the components, protecting them against damage from impacts, extending component life and minimizing repair cost.

## Simple Intuitive Controls

Simple controls and instructional icons on the control panel make the Bx20SC easy to learn, reducing training costs.

## Yellow Color-Coded Parts

Parts that should be cleaned daily are color coded in yellow. This saves time and makes sure your scrubber is kept in perfect condition at all times

### Disc Brush / Pad Holder

The most versatile and effective type of brush design. The solution emerges from the center of the disc, ensuring effective scrubbing and reduced water usage.

### Hygienic Recovery Tanks

Thanks to the large, hinged lid, operators can quickly and easily clean the entire recovery tank.

### Emergency Stop

If an unforeseen event arises, employees can safely stop all machine functions with the press of a single, highly visible button.
