

CS20A-EBP EXTENDED BATTERY PACK

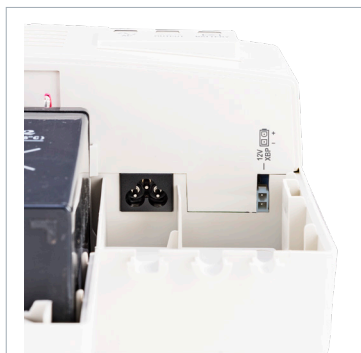

Indoor battery pack that provides extended run time

The Extended Battery Pack, CS20A-EBP is used with compatible CyberPower CyberShield UPS units to extend the overall back up time of the Fiber-to-the-Home broadband equipment. The CS20A-EBP is designed to be mounted inside the home in locations such as basements, mudrooms, utility closets and garages. Up to two CS20A-EBP units can be used to create longer run times. Housing a 20Ah battery, this 12Vdc External Battery Pack maintains the battery charge via a wired connection to an attached CyberPower UPS unit.

Compatible Cyber Power FTTx UPS units include:

- DTC50U12V
- CS30U12V-20
- CS75A12V3
- CSN27U12V
- CS50U48V
- CS24C12V2-E
