

Revoflow[®]

A7

Premium Quick Drying Rinse Aid

Premium concentrated low foam general purpose rinse additive for machine warewashing. High yield rinse aid for all water conditions.

Features & Benefits

- Designed to lower the surface tension of the final rinsing water
- Prevents droplet formation, and because the water sheets off the surface in a thin layer, drying times are also reduced
- Gives streak and spot-free results
- Low foaming action for more efficient operation
- Concentrated formulation gives excellent cost in use

Applications

- Product is automatically injected into the final rinse line of the dishmachine using the Revoflow[®] dispenser

Suma[®] Revoflow[®] A7

Premium Quick Drying Rinse Aid

Use Instructions

- For commercial dishmachine use only
- Product is automatically injected into the final rinse line of the dishmachine using the Revoflow[®] dispenser
- Use level will vary depending on operating and water conditions and will be recommended by your Diversey representative
- Final rinse temperature should be 82°C to 90°C (179.6°F to 194°F) for optimum results
- **For Food Plant Use:** Avoid contamination of food during use or storage. Cookware or utensils and other equipment and surfaces subject to direct contact with food must be thoroughly rinsed with potable water prior to re-use.

Technical data	Suma [®] Revoflow [®] A7
