### Description

Mechanically Strip and restore -all without chemicals! It's so versatile that no matter what task, the Extreme Red is the best choice.

The Extreme Red Pad is the new innovation from Twister. Like all Twister pads, the Extreme Red Pad contains billions of microscopic diamonds. Extreme Red Pad enables stripping of floor finishes, stain and etch repair and even light honing of different flooring surfaces. This revolutionary pad will perform exceptionally fast and efficient when stripping and restoring. This versatile pad, can be used on many floor types; vinyl, terrazzo, concrete, marble and many others.

The Extreme Red Pad is a problem solver for natural stone or concrete floors that have been etched or stained. With just water, everything can be accomplished without using chemicals. Extreme Red Pad cost savings; eliminates extra time consuming steps and chemicals. It is the complete solution to tackle heavy-duty tasks. Extreme Red Pad strips or restores in one easy process.

### Key Advantages

- Use with any pad driver. No backer pad needed
- Reduces slips & falls. No slippery stripper residue
- No contact of chemicals with skin & clothing
- Eliminates cleanup of stripper on baseboards
- Light honing and removal of lippage

### Benefits

- Innovative method for daily floor maintenance that cleans and polishes a variety of unprotected floors
- Maximizes the floor appearance
- Increased gloss level and cleanliness
- Used with current maintenance programs
- Cleans and polishes a variety of unprotected floors
- For use to restore and troubleshoot floors with traffic in excess of 5000 visitors daily

## Twister Diamond Floor Pads - Extreme Red Pads

### Instructions for use

1. Dry mop the floor. Dry mopping improves the cleaning result as well as providing cost savings.
2. Prepare the cleaning machine. Can be used with an Automatic Scrubber or Low Speed machine.
3. Mount the Twister Extreme Red Pad on a pad holder. The printed side should face the machine and the diamond impregnated side facing the floor.
4. Scrub the floor.
5. Pads must be broken in to achieve optimal performance.

### Take care of the pads

1. After use remove the pads from the pad holder.
2. Rinse the pads under tap water and allow to dry.
