

CRC Industries NZ, Auckland NZ

**I. Product Description**

CRC Wet Look produces a durable, ultra-high gloss, wet look shine for tyres, mud flaps and bumpers. Quick and easy - simply spray on and let the unique formula produce an intense, long lasting wet look shine. No rinsing, wiping or rubbing required.

CRC Wet Look will make tyres look clean and like new and is ideal for low profile and high performance tyres.

CRC has a full range of products to clean, shine and indulge your car. From wash & waxes to mag & tyre cleaners, the CRC range has every make and model covered.

**II. Features & Benefits**

- Ultra high gloss tyre shine - Giving tyres that “brand new” look.
- Leaves a deep wet look finish.
- Quick & easy to apply
- Contains high performance silicones to protect and enhance tyres
- High endurance - Withstands normal wet conditions.
- Long lasting
- Made in NZ

**III. Application and Directions**

1. Shake can well.
2. For best results, apply to clean, dry tyres.
3. Spray in short bursts, moving around the tyre until covered in a liberal coat.
4. Overspray should be wiped away with a soft cloth.

|              |                                  |
|--------------|----------------------------------|
| Appearance   | Clear liquid with residual gloss |
| Flammability | Extremely flammable aerosol      |

**V. Package Description**

|                    |               |
|--------------------|---------------|
| <b>Part Number</b> | <b>Size</b>   |
| 5047               | 500ml Aerosol |

**VI. Special Precautions****General:**

Extremely flammable aerosol. Keep away from naked flames, electrical appliances/lights, lighted cigarettes, etc. Use with adequate ventilation. Store in a cool, well-ventilated area. Dispose of empty containers safely.

**Aerosol Cans:**

Do not puncture, incinerate or store above 50°C. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

**First Aid:**

If in Eyes – Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids. Transport to hospital or doctor without delay if pain persists.

If Inhaled – Remove to fresh air. Lay patient down. Keep warm and rested.
