

# Revolutionize cleaning with Diversey dosing systems.

Our professional concentrates offer superior cleaning results available in a dosing systems sized for your needs. Ideal for situations where there is limited water pressure, a lack of water connections, or a need for dosage flexibility or portability.

## Ready To Use (RTU)

The right solution for customers needing a simple & convenient solution to dispense cleaning chemicals.

- Most convenient type of dispensing
- Lowest training requirements for use
- Fit for customers that do not want / need dispensing equipment

## Snap N' Dose™ PRO

Portable portion-pack solution for both spray bottle and bucket cleaning, making it ideal for all small cleaning operations.

- Convenient for transportation and distribution to small sites
- Individual portions regulate product use, offering greater control and helping with budget management

## Easy Paks®

This easy-to-use packets offers effective cleaning with convenience, simplicity, and pre-measured control.

- Convenient packaging and super concentration saves space and reduces waste
- Water Soluble and dissolve instantly

## SmartDose™

The intuitive SmartDose solution provides better cost control and accuracy than any other dosing system, in a full range of daily cleaning products.

- Eliminates guesswork by automatically calculating two accurate doses of concentrate for bottle, bucket, auto scrubber and toilet applications
- The portable SmartDose bottle utilizes easy to understand icons, while minimizing exposure to concentrated cleaning products
