

KEEP PACKAGING AWAY FROM CHILDREN.
Remove any plastic attachments and packaging before giving to children. Please retain all product information for future reference.

TO CLEAN:

Wash and inspect before first use. Disassemble parts before cleaning. Top rack dishwasher safe or hand wash in warm water using mild liquid soap and rinse thoroughly with clean water.

TO USE:

1. Ensure straw is seated correctly in the lid.
2. Fill cup with liquid. Thin liquids (water, milk, juice without pulp, etc.) recommended.
3. Screw on the assembled lid to cup until it stops. Do not overtighten.
4. Place the straw in child's mouth and squeeze the cup gently to let liquid travel up the straw into the child's mouth. Ensure child safely swallows the liquid before squeezing again.
5. Repeat until child begins sucking liquid up the straw independently without the cup being squeezed. Some children may quickly adapt to drinking from this cup, and others may need continued assistance.

WARNING:

To prevent burns, DO NOT use cup with hot liquids. To prevent injury, do not allow child to walk or run while using cup. Inspect cup regularly for damage. Prolonged contact with some liquids, other than water, may cause tooth decay. Always use this product with adult supervision. This product is not a toy. Do not allow child to play with it. Do not leave child unattended while using. Remove all packaging components before giving to a child.

CAUTION: Discard immediately if signs of cracks, tears, or excessive wear appear.
Do not give cup to child if cracked or torn.

IMPORTANT: Cup may leak if shaken, squeezed, or held upside down. Multiple washings may reduce spill-proof performance. Cups are designed to be used with milk, water, or juices that don't contain pulp. **DO NOT** use with carbonated beverages or fatty foods such as soups, vegetable oil, butter, etc. **DO NOT** use in microwave oven. **DO NOT** freeze, boil or sterilize.

Straw is not intended to be used as a teether, do not let child chew on it.
