

# GPS TRACKING DEVICE

## FOR INSTALLATION IN AEDS

### Directions for Installation and Use

1

Remove all items from the zip seal bag and check against the advised inventory list.  
Remove tracking device from the box provided.

2

Remove the screws from the tracking device and fit the 2 AA batteries as directed.

3

Replace the screws to ensure the tracking device is securely closed.

4

Peel the backing from one side of each self-adhesive tape square.

5

Apply the tape squares to the tracking device as shown in the image, as this positioning is vital to keep the screws accessible for future battery replacement.

6

Align the tracker on the AED as depicted, ensuring it does not obstruct the battery. Apply firm pressure to ensure strong adhesion.
