

# KINGSTON

REPLACE YOUR EXISTING  
KITCHEN SINK

## REQUIREMENTS

1. Measure the width of your existing kitchen sink and the distance between the mounting holes.
2. Be certain that your countertop is made of solid stone.
3. The countertop thickness must be 1 1/2" to 2 1/4".
4. The sink must be mounted on a solid surface. Do not use a laminate countertop.
5. The countertop must be level.
6. The sink must be mounted on a solid surface. Do not use a laminate countertop.
