

IntelliCare™ Hand Hygiene Dispenser

Hybrid Handcare Dispenser

The IntelliCare™ Hand Hygiene dispensing system can address all of your hand care needs with a versatile, modern and durable platform that is compatible with liquid/gel and foam products.

Features & Benefits

- Patented hybrid functionality allows for dispenser to convert from hands free to manual in the event of battery failure making hand hygiene always available.
- Low content alert informs staff when product level is low, enabling a “never empty” function
- Simple and intuitive touch free operation, complimented by an illuminated “Push” icon if batteries need replacing
- Ultimate versatility is achieved with one system that will dispense both liquid and foam products
- Robust and reliable ABS-plastic, scratch and UV-resistant body with no dirt traps make for an easy maintenance and spotless appearance
- Dose size adjustor allows you to vary the volume of soap dispensed based on end user needs
- ADA and CCD compliant to meet all of your facilities needs

Applications

- Great for use in areas where frequent hand washing or sanitizing requires an always-available product dispensing option

IntelliCare™ Hand Hygiene Dispenser

Hybrid Handcare Dispenser

Use instructions

- Place palms approximately 2” below dispenser
- Product will be dispensed within 1 second of sensor activation
- If “PUSH” symbol is lit, use manual push pad to dispense product

Refill Bottle Features

- Fully collapsible recyclable bottle that uses up to 30% less plastic/ml than conventional bottles
- Hermetically sealed bottle with no-drip/no-clog dosing pump that ensures content is free from contamination, avoiding the risk of bacterial build-up
- Larger volume bottle that provides cost-effective hand hygiene and minimizes number of refill changes
- Key-necked plug-in bottle, for a quick, safe and easy refill process
- Unique bottle design collapsing from the back to enable full product visibility, with a <50 doses cue that informs when bottle will soon need replacing
