

Promelt Slicer Enhanced

Economical ice melt for use on exterior walkways, parking areas and entryways.

Effective

- Emits less chlorides into the environment
- Helps to protect your equipment from corrosion caused by salt
- Less harmful to concrete and the environment due to its low alkalinity
- 100% natural
- Low toxicity (LD50)
- Increased speed & effectiveness of melting agents
- Longer lasting residual effect, reducing reapplication frequency
- Performs to -6°F (-21°C)
- Appealing color prevents over application
- Easy application - convenient 44 lb. (20 kg) packaging for easy handling

Promelt Slicer Enhanced

Use Directions

- For application in general conditions, evenly sprinkle 1/4 to 1/3 cup (57-76 grams) per square yard (meter) for driveways and walkways.
- Melting begins immediately and melting action will continue longer than many other commonly used de-icers.
- Shovel off slush.
- Thick accumulations of ice may require additional applications.
- For optimum results, remove all loose snow and slush from driveways, steps and walkways before applying.
- This product is extremely effective if applied at the start of a snowfall or freezing of surface dampness.
- Product may also be kept in cars and trucks for use in any situation where traction is required.
- Spread a generous amount in the path of traction wheels to get out of slick parking areas or other places where additional traction may be necessary.
- Store Promelt Slicer Enhanced bags in a dry place. Promelt Slicer Enhanced contains complex chloride crystals that are treated with a blend of magnesium chloride and a corn based carbohydrate with a viscosity modifier which may harden and cake if exposed to moisture. Close and reseal bag tightly to keep product dry, or place in moisture-proof container.

Technical data	Promelt Slicer Enhanced
Color/Form	Orange granules
Scent	No fragrance added
Solubility	Soluble in water 92-99%
Bulk Density	1137 kg/m ³ or 71.0 lbs./ft ³
% Volatile	Negligible

Product	Pack size	Dilution	Product code
Promelt Slicer Enhanced	1 x 20 kg/44 lb. Bag	Ready-to-Use	10408 

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
