ORDERING INFORMATION

EXAMPLE: PC21

Series	
PC21	Fills 35 cu. in.
PC2112	Fills 20 cu. in.

SPECIFICATIONS AND FEATURES

MATERIAL: Shall be of urethane formulation.

GEL TIME: Shall be 20 minutes at 73°F and 80 minutes at 20°F.

PACKAGING: Shall be unipak, allowing for fast mixing of premeasured portion and is poured directly from container.

INSTRUCTIONS: Open outer envelope and firmly grasp each flat side of the compounds near the center barrier. Pull sides of barrier apart and roll through the barrier to break it apart completely. Mix thoroughly by squeezing the two materials together and begin pouring immediately after mixing.

Full instructions with diagrams are printed on each package for field use.

BUY AMERICAN ACT: This product is assembled in the USA and meets the Buy America(n) government procurement requirements under FAR, DFARS and DOT regulations. Please refer to www.acuitybrands.com/resources/buy-american for additional information.

WARRANTY: 1-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/support/customer-support/terms-and-conditions

NOTE: Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.
