

PEEL & STICK!

## STOP NOISE AT THE SOURCE

Unwanted noise produced by vibrating sheet metal is a common problem in every household. Appliances, air conditioners, duct work and piping create irritating noise problems that keep you from enjoying music, movies and everyday family life. All these items are made from sheet metal and can be made quiet with an application of Dynamat.

Sheet metal

Sheet metal

Dynamat

Sheet metal subjected to impact creates noise. With Dynamat installed, the noise is transformed into silent energy through a process called "Vibro-Acoustic Energy Conversion". Dynamat converts the vibrational energy into low-grade thermal energy. The result is a more quiet and comfortable living environment.

## FOR USE THROUGHOUT YOUR NOISY HOME

### DAMP VIBRATIONS

DUCT WORK

### STOP NOISE

APPLIANCES

### REDUCE STRESS

SOIL PIPES

## Dynamat Solves Noise Problems

### Utility Pak 6.6 sq.ft.

24 shts - 1/16" thick x 4" x 10" ea.

PART NO. 50400

### Bulk Pak 36 sq.ft.

9 shts - 1/16" thick x 18" x 32" ea.

PART NO. 50455

Home theaters, computers, dishwashers, appliances, air conditioners, TVs, radios and exercise equipment all add to the enjoyment of your family's daily life. When it's all happening at the same moment, it's all noise. Combined with outside noise from planes, trains and automobiles - you have ample reason to want to get away from it all. Use Dynamat Xtreme throughout your home and get "Better Sound" and "Quieter Living".

SOIL PIPES

Unwanted noise produced by vibrating sheet metal is a common problem in every household. Appliances, air conditioners, duct work and piping create irritating noise problems that keep you from enjoying music, movies and everyday family life. All these items are made from sheet metal and can be made quiet with an application of Dynamat.

Dynamat Xtreme is a very thin, light-weight, constrained-layer vibrational damper. Dynamat Xtreme has a self-adhesive peel and stick backing with a high level of tack that conforms and fuses easily to sheet metal and any other hard substrate.

*Dynamat solves noise problems!* # 50400 Xtreme Utility Pak 6.6 sq.ft. (0.61 sq.m.)  
# 50455 Xtreme Bulk Pak 36 sq.ft. (3.3 sq.m.)

## FOR IN-CEILING SPEAKERS

DynaBox is a unique retrofitable ceiling speaker enclosure that completely encases the speaker, effectively reducing sound migration between rooms, ceilings and floors. DynaBox is ultra-flexible which enables it to be completely collapsed for installation. This revolutionary design makes the DynaBox extremely easy to retrofit through existing speaker openings or install in new construction. DynaBox projects more clear sound into the room and reduces unwanted sound traveling outside the room.

# 50306 DynaBox in-ceiling enclosure  
17.25" x 12.25" x 6.5"  
(43cm x 31cm x 16cm)

*Simple retrofit installation!*

## FOR IN-WALL SPEAKERS

En-Wall Enclosure Systems combine Dynamat Xtreme, Back-wave absorber and the SoundSnake to damp, diffuse and decouple in-wall speakers. En-Wall significantly reduces wall vibration, projects more clear sound into the room and reduces unwanted noise transfer through walls. En-Wall encases in-wall speakers creating an optimal acoustic environment for delivering premium sound quality.

# 50504 4" stud En-Wall Enclosure System  
# 50506 6" stud En-Wall Enclosure System

Dynil is a dense, ultra-pliable acoustic barrier that prevents sound transmission through walls, floors and ceilings. Dynil works to prevent unwanted noise transfer outside the room while creating an optimal acoustic environment in the room.

Dynil makes any room quieter and is ideal for the home theater, home office, nursery, exercise room, study, laundry room, and bedroom. Use Dynil throughout your home for "Better Sound" and "Quieter Living."

# 50100 Dynil 112.5 sq. ft. (10.4 sq.m.)  
0.095" thick x 54" x 25' roll  
(2.4mm thick x 1.37m x 7.62 m roll)

DynaPad is an effective, four-part, composite sound barrier that dramatically reduces sound transmission. Easy to install, DynaPad can be used in place of, or in addition to existing carpet pad. Use DynaPad on floors above or below the home theater to prevent unwanted noise transfer outside the room while creating an optimal acoustic environment inside the room.

# 50110 DynaPad 112.5 sq. ft. (10.4 sq.m.)  
3/8" thick x 54" x 25' roll  
(9.5mm thick x 1.37m x 7.62m roll)
