STEP 1.

After completing assembly of your Power Tool Storage Rack, use this included Mounting Template to determine spacing and mounting hole locations.

STEP 2.

Use tape to attach template in the desired location and verify the rack will have enough clearance for hanging tools.

STEP 3.

Once position has been confirmed, use level to verify mounting hole locations will be level, once the hardware is installed.

STEP 4.

Use a pen or screw to penetrate template and mark all 4-hole locations on wall.

STEP 5.

Remove template from wall and, if not mounting directly to into wall studs, use the appropriate wall anchor mounting hardware, depending on the wall material.

(Basic 5/16 in. Sheet rock wall anchors and screws have been included.)
