

Works naturally to destroy odors at their source. Unlike many products that simply mask odors, Take Down uses safe, natural bacteria and enzymes to eliminate stubborn odors. Plus there are no harsh chemicals to worry about. The bacteria simply die when their job is done and convert to carbon dioxide and water. Take Down can be safely used in a variety of applications including restrooms, floors, carpet, garbage containers, cigarette urns, and anywhere foul odors are a problem.

Features & Benefits

Uses safe, natural bacteria and enzymes to destroy odors.

Can be used as an additive in cleaning solutions.

Fresh and Clean fragrance.

Item Number & Unit of Measure

| Item Number | HIL0046406 |
| Unit of Measure | 1 gal Bottle |

Specifications

| | |
|------------|-----------------|
| Color | Slightly yellow |
| Appearance | Hazy |
| Fragrance | Fresh Linen |

| | |
|---------------------|-------------|
| Formula Type | Liquid |
| Dilution Ratio | 1:128 - 1:8 |
| PH | 6.5 - 8.5 |
| Non-Volatile Matter | 2.5 - 3.5% |

Safety

See safety datasheet (if applicable) and product label for safety information, handling and proper use.

Directions for Use

Normal deodorizing = Mix 1 to 4 ounces per gallon of water. Strong Odors = Mix 4 to 6 ounces per gallon of water. Trash Containers = Mix 8 to 16 ounces per gallon of water. Drain line maintenance = Pour 4 to 6 ounces directly into drain on a daily basis. As a cleaning solution additive = Use 1 to 2 ounces per gallon of cleaning solution. NOTICE: Do NOT mix with disinfectants, bleach, or ammonia.
