

# TASKI® Mobile Work Station

## TASKI® Mobile Work Station Model S13

The TASKI® Mobile Work Station is part of a complete cleaning system, an integrated approach that seamlessly incorporates tools, chemicals and processes to deliver improved cleaning results.

### Features & Benefits

- Color coded cloth box lids coordinate with TASKI microfiber products and can be changed for different applications or cleaning requirements to avoid cross contamination
- Designed for use with spray & wipe, disposable or pre-wetted microfiber flat mops and cloths to significantly reduce chemical solution change-out trips, reduce water use and lessen environmental impacts and overall costs
- Medium capacity storage space and on-board vacuum platform improves shift efficiency by eliminating trips back to the supply closet
- Configured to meet the exact requirements for facility needs with modular components for future job adaptation ensuring everything needed is on-board and time spent on non-cleaning activities is reduced
- Lockable chemical storage secures supplies and prevents theft
- Ergonomic design of the adjustable handle and mop box kick-out features reduce worker fatigue; On-board, 40 gallon waste receptacle with easy user access eliminates the need for a separate trash container
- TASKI microfiber products support LEED certification efforts

### Applications

- Designed for acute or long-term patient room cleaning
- Ideal for office cleaning and building service contractors
